## 2019-2020 SPORTS QUALIFYING PHYSICAL HISTORY FORM

Minnesota State High School League Note: Complete and sign this form (with your parents if younger than 18) before your appointment. Date of birth: Name: Sport(s): Date of examination: Sex assigned at birth (F, M, or intersex): \_\_\_\_\_ How do you identify your gender? (F, M, or other): \_\_\_\_ Past and current medical conditions: Have you ever had surgery? If yes, list all past surgeries. \_\_ Medicines and supplements: List all current prescriptions, over-the-counter medicines, and supplements (herbal and nutritional). Do you have any allergies? If yes, please list all your allergies (ie, medicines, pollens, food, stinging insects). Patient Health Questionnaire Version 4 (PHQ-4) Over the past 2 weeks, how often have you been bothered by any of the following problems? (Circle response.) Not at all Several days Over half the days Nearly every day Feeling nervous, anxious, or on edge Not being able to stop or control worrying 3 2 Little interest or pleasure in doing things 0 3 Feeling down, depressed, or hopeless 2 (If the sum of responses to questions 1 & 2 or 3 & 4 are >or = 3, evaluate.) Circle Question Number (1.) of questions for which the answer is unknown. **GENERAL QUESTIONS HEART HEALTH QUESTIONS ABOUT YOU**<sup>a</sup> 9. Do you get light-headed or feel shorter of breath than your friends during exercise? HEART HEALTH QUESTIONS ABOUT YOUR FAMILY 11. Has any family member or relative died of heart problems or had an unexpected or unexplained sudden death before age 35 years (including drowning or unexplained car crash)? Y / N

12. Does anyone in your family have a genetic heart problem such as hypertrophic cardiomyopathy (HCM), Marfan syndrome, arrhythmogenic right ventricular cardiomyopathy (ARVC), long QT syndrome (LQTS), short QT syndrome (SQTS), Brugada syndrome, or catecholaminergic polymorphic **BONE AND JOINT QUESTIONS** 14. Have you ever had a stress fracture or an injury to a bone, muscle, ligament, joint, or tendon that caused you to miss a practice or game? ....... Y / N **MEDICAL QUESTIONS** 19. Do you have any recurring skin rashes or rashes that come and go, including herpes or methicillin-resistant Staphylococcus aureus (MRSA)? .. Y / N 20. Have you had a concussion or head injury that caused confusion, a prolonged headache, or memory problems? ....... Y / N 21. Have you ever had numbness, tingling, weakness in your arms or legs, or been unable to move your arms or legs after being hit or falling? ...... Y / N 28. Have you ever had an eating disorder? **FEMALES ONLY** 30. How old were you when you had your first menstrual period? 31. When was your most recent menstrual period? 32. How many periods have you had in the past 12 months?

## 2019-2020 PI ADAPTED ATHLETICS MEDICAL ELIGIBILITY FORM Addendum (Use only for Adapted Athletics - PI Division)

The MSHSL has competitive interscholastic Physically Impaired (PI) competition. Students who are deemed fit to participate in competitive athletics from a MSHSL sports qualifying exam should meet the criteria below to participate in Adapted Athletics – PI Division.

The MSHSL Adapted Athletics PI Division program is specifically intended for students with physical impairments who are medically eligible to compete in competitive athletics. A student is administratively eligible to compete in the PI Division with one of the two following criteria:

The student must have a diagnosed and documented impairment specified from one of the two sections below: (Must be diagnosed and documented by a Physician, Physician's Assistant, and/or Advanced Practice Nurse.) 1. \_\_\_\_\_ Neuromuscular \_\_\_\_\_ Postural/Skeletal Traumatic Growth Neurological Impairment Which: affects Motor Function \_\_\_\_ modifies Gait Patterns Requires the use of prosthesis or mobility device, including but not limited to canes, crutches, walker or wheelchair. 2. Cardio/Respiratory Impairment that is deemed safe for competitive athletics, but limits the intensity and duration of physical exertion such that sustained activity for over five minutes at 60% of maximum heart rate for age results in physical distress in spite of appropriate management of the health condition. (NOTE:) A condition that can be appropriately managed with appropriate medications that eliminate physical or health endurance limitations WILL NOT be considered eligible for adapted athletics. Specific exclusions to PI competition: The following health conditions, without coexisting physical impairments as outlined above, do not qualify the student to participate in the PI Division even though some of the conditions below may be considered Health Impairments by an individual's physician, a student's school, or government agency. This list is not all-inclusive and the conditions are examples of non-qualifying health conditions; other health conditions that are not listed below may also be non-qualifying for participation in the PI Division. Attention Deficit Disorder (ADD), Attention Deficit Hyperactive Disorder (ADHD), Emotional Behavioral Disorder (EBD), Autism spectrum disorders (including Asperger's Syndrome), Tourette's Syndrome, Neurofibromatosis, Asthma, Reactive Airway Disease (RAD), Bronchopulmonary Dysplasia (BPD), Blindness, Deafness, Obesity, Depression, Generalized Anxiety Disorder, Seizure Disorder, or other similar disorders.
